The International Protection Module of the Settle in Estonia Programme is a free training programme which helps refugees in Estonia discover how they can succeed in this society.

This training course is provided by Estonian Refugee Council and the International Organization for Migration (IOM).

According to the Estonian law, beneficiaries of international protection are obliged to attend the training.

What will you learn about?

- finding a place to live
- working in Estonia
- continuing studies in Estonia
- support available for you and your family
- your rights and obligations, including information about residence permits and family reunification
- Estonian digital services
- Estonian people and their culture
- finding Estonian language courses
- tips how to build social networks
- many other topics that help you build a life in your new home.

In which language is the training carried out?

As a rule, the training is provided in your native language. For less common languages interpreters may be used or the training programme shortened.

How to attend the training?

Register to the training at www.settleinestonia.ee. At any time you may ask for help from the staff at the accommodation centre, your support person or contact us directly at info@settleinestonia.ee.

After you are registered, you will be contacted by the training coordinator at Estonian Refugee Council for practical arrangements.

What else do I need to know?

Training course consists of 4 days in the classroom and one day for different interactive activities. During the training you are provided with free lunch and, if needed, we can cover your accommodation and travel costs to attend the training. Depending on the age of children, they can stay in childcare or participate in activities organized by Estonian Refugee Council and IOM.

Estonian Refugee Council provides support services to beneficiaries of international protection in Estonia and humanitarian aid to people who have fled their homes abroad. We are one of the main competence centers on forced migration and integration in Estonia.

IOM is the UN Migration Agency that is dedicated to promoting humane and orderly migration for the benefit of all. It does so by providing services and advice to governments and migrants.

The project is co-funded by the European Asylum, Migration and Integration Fund and the Ministry of the Interior of the Republic of Estonia.
